

## Ode To Peace – Dick Morris' Version (yellowed text) as of April 19, 2014

Joyfully we are lifting our voices  
For all of us that are everywhere.  
For all of us in every nation  
We're joining in our fervent prayer.

All of us in every nation  
The strong and mighty, meek and mild  
We want caring, compassion and peace  
For every woman, man and child

We're singing gladly in unity  
We really care what happens to us all  
We're sharing in our common dream  
To bring caring and compassion to us all

All of us in every nation  
We're sharing the dream we have for us all  
And side by side 'cross oceans wide  
We want peace, compassion and justice for us all!
