

Sunshine Man's Wish For Us All!

Words & music by Dick Morris, April 27, 2016

I sincerely hope that **you** and I – and all of the souls that we care about (both human and non) – that through all of the physical-bodies – in which we are now incarnated – that we will **all** have **long, healthy, happy, wonderful, compassion-filled lives!**; and, that you will be there (still incarnated in your current-physical body) at my current physical body's 130th birthday party on January 1, 2075!; and, I also hope that all of the things that happen in our lives will be only those wonderful, caring and compassionate things that we want to have happen in our lives!
